This is an excellent opportunity to join Cole Easdon (CE) as an Infrastructure Design Engineer in our Swindon or Bristol office. CE is a multi-disciplinary civil engineering consultancy. Founded in 1986, we are proud to have earned a reputation for quality, reliability and value. We stand out from our competitors as a strong, independent company that understands where we have come from, and where we are headed.

The Role

On a day-to-day basis you will be involved with the preparation of the detailed design of private and adoptable highways as well as drainage schemes for residential and commercial developments. Reporting to a Director, you will play a key role in, assisting in the production of S278, S38 and S104 designs to gain technical approval from the relevant authorities. You will be required to liaise directly with clients, council officers and design team members. Appropriate training will be provided through on-project learning and external training courses.

Travel to site visits and meetings (usually with a more experienced colleague) will also be necessary.

Essential Knowledge, Qualifications and Experience

- A relevant Bachelor or Masters degree (in a subject such as Civil Engineering);
- A minimum 1-2 years' workplace experience producing engineering and technical drawings for highway and drainage schemes;
- A working knowledge of relevant technical guidance such as Manual for Streets, Design Manual for Roads and Bridges, Local Highway Standards, Design & Construction Guidance and Building regulations is required;
- Knowledge of AutoCAD, PDS (or Civils 3D) and MicroDrainage/InfoDrainage;
- Excellent numeracy, oral communication and written English skills;
- Proficient in Microsoft Office packages (Word and Excel);
- Creative and logical thinker, able to problem solve;
- Ability to manage and prioritise own workload.

Desirable Skills

- A full UK driving licence is desirable.

Cole Easdon is seeking to be an equal opportunities employer and we welcome applications from candidates from diverse backgrounds. Every candidate is assessed in accordance with their merits, qualifications and ability to perform the duties of the job.

If you think you have the skills required for this position please forward your CV to Ewa (edennehy@coleeasdon.com) with the subject line reading 'Infrastructure Design Engineer – [Insert Name]'. Please include salary expectations.
